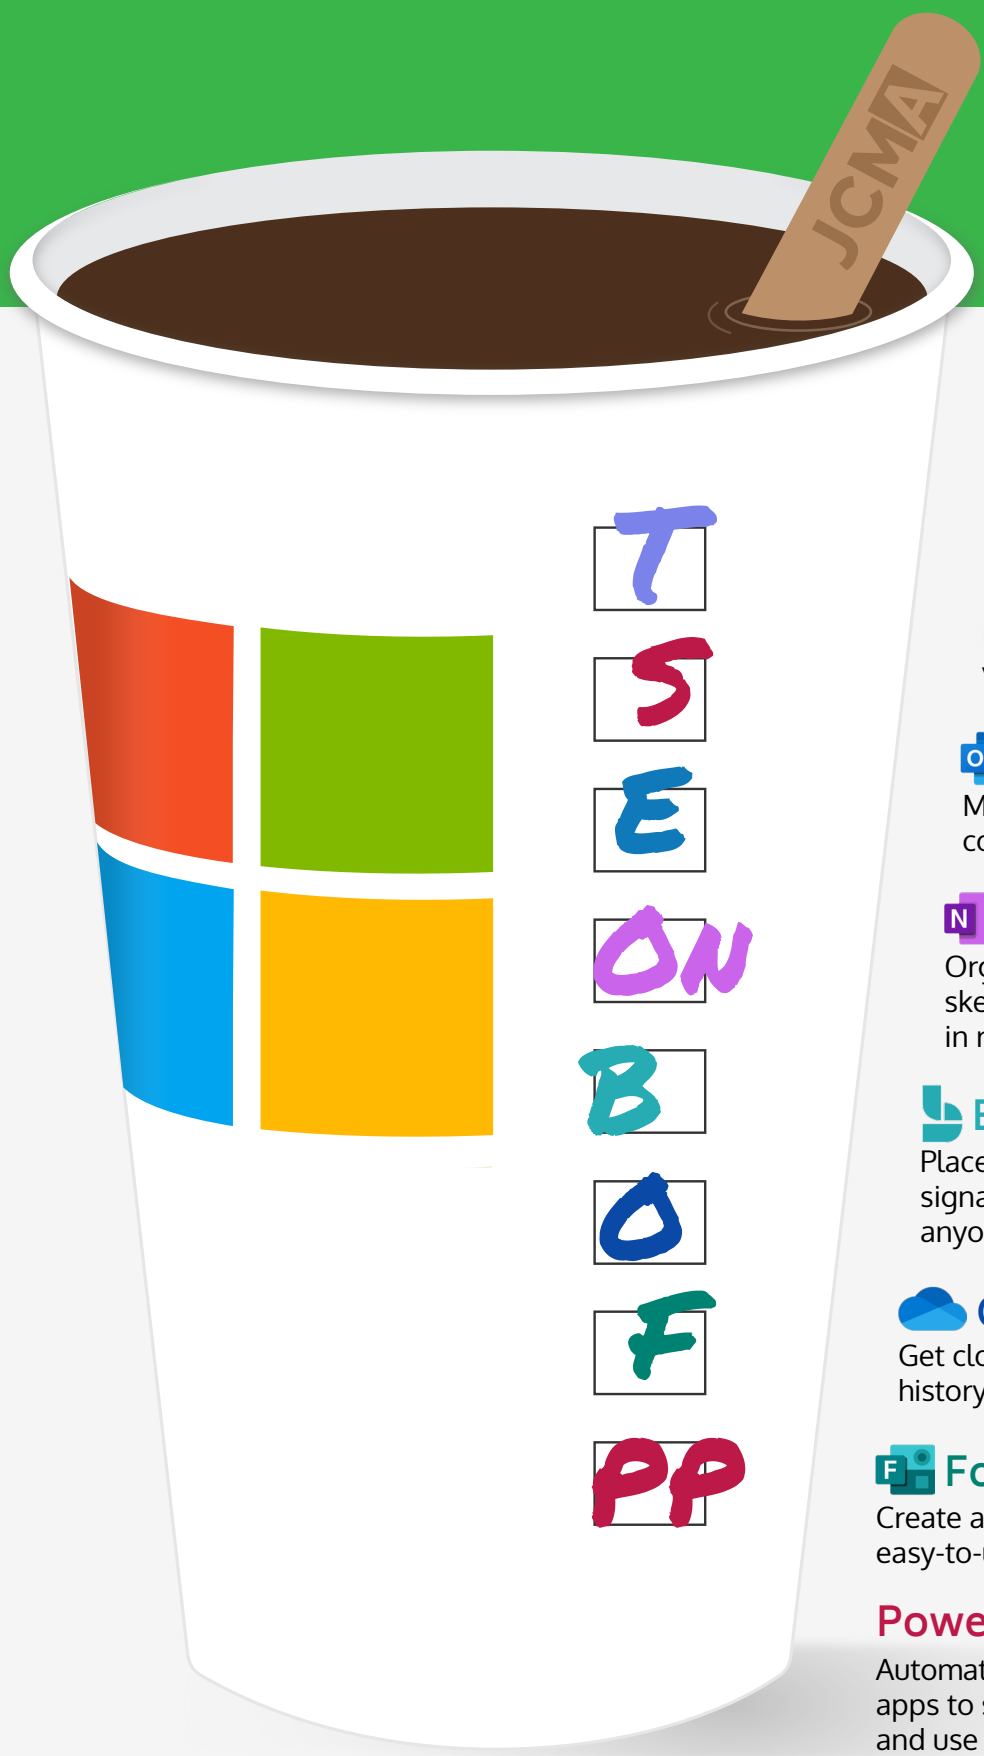
HOW MUCH ARE YOU SPENDING TO GET THE PRODUCTIVITY FEATURES YOU NEED?

Stop pouring cash into multiple software platforms. Get it all with a Microsoft 365 subscription, starting at the price of one cup of coffee per month.



THE MICROSOFT 365 PLATFORM

VS. ALL THOSE DIFFERENT PLATFORMS

Teams

The hub for all your business applications, Teams also features chat, audio and video calling.

Stream

Like an internal YouTube, Stream lets you share videos and even screen recordings with your team.

Outlook

Manage email, to-do's, meetings, calendars and contacts with advanced security to keep your data safe.

OneNote

Organize your notes, images, voice notes and even sketches in one place, and collaborate with your team in real time — on any device.

Bookings

Place Bookings links on your website or in your email signature. Bookings reads your calendar and allows anyone to schedule appointments with you.

OneDrive

Get cloud storage with automatic back-ups, version history, co-authoring and multiple ways to share files.

Forms

Create a survey and collect organized feedback with the easy-to-use Forms app, and see the results right in Teams.

Power Platform

Automate repetitive tasks with Power Automate, create apps to streamline business processes with Power Apps, and use Power BI to visualize and analyze your data.

get all this starting at ***$5 per month*** **vs.** ***$99+ per month***
depending on features

MAKE THE SMART CHOICE

Microsoft 365 is the smart choice for businesses of any size. Whether you lead a team or you are the team, we can show you how to get started and get the most from your subscription.
